To Whom It May Concern

We highly recommend using 6-Point Property's services. Our experience has been that Simon and his team's services have been invaluable.

We have bought four properties using 6-Point's assistance and are currently in the process of buying our 5th using their services. We are confident that we are assembling a portfolio of properties that will help us achieve our retirement goals well ahead of schedule.

We have used Simon's services for investment planning to create our Property Investment Plan as well as his property market research and his full Buyer's agent services. We estimate that the property purchases negotiations which Simon carried out on our behalf have saved us around \$100,000.

Most importantly, we believe the properties Simon has selected for us all have great growth prospects – much better than we would have found alone. For example, two of the properties are in locations that we would never have thought to buy in. Simon showed us his detailed research and how they fit into the financial modelling in our plan. We are excited about the future prospects of these properties.

Not only does the team at 6-Point Property make buying investment property more financially rewarding but they also make the buying process much smoother. The massive savings in time and stress justifies using them alone.

We thank Simon and his team for all their assistance and can't speak highly enough of their services. If you are considering buying property make sure the first thing you do is give 6-Point Property a call!

Kind regards,

Stephen and Lisa Dibb
